

Change, Page 1 Step #5 - 8

- 5) Familiarize yourself with the 120° ruler, at this point we will be using the two lines indicated as “A” and “B”. Throughout this pattern, a folded edge will always be placed on the “A” solid line, and a non-folded edge will be placed on the “B” dashed line.

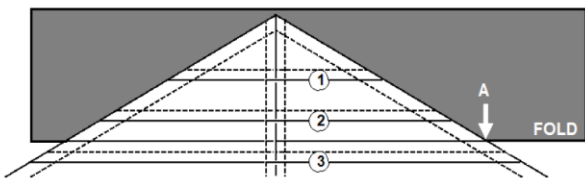

- 6) Place the ruler on the left side of your folded strip set. Align the “A” solid line with the bottom row of stitching, and the “B” dashed line with the bottom edge of the seam allowance from the bottom row of stitching. Note: The top of the triangle may extend slightly beyond the top strip. Rotary cut along the triangle’s edges.

- 7) Repeat the process on the remaining folded strip set to produce two diamond shaped sections.

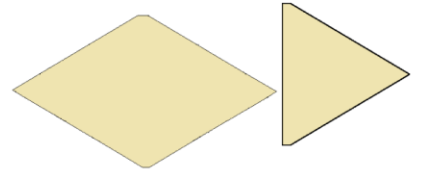

- 8) Fold one of the **Fabric A- Top Fabric** 7½” x 14” rectangle in half lengthwise. With the fold at the bottom, align the 120° ruler’s “A” solid line directly on the fold. Rotary cut along the triangle’s edges.

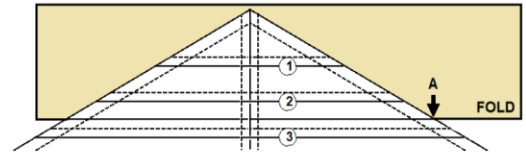

Page 2 Cut Background Diamonds section

Cut Background Diamonds

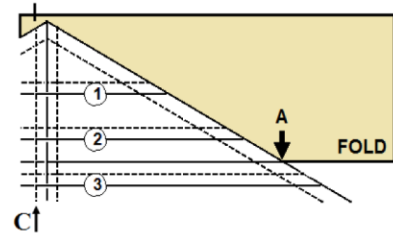

- 18) To assemble the quilt top, full diamond and half-diamond sections need to be cut. These pieces are cut from 7½” x wof strips that have been folded lengthwise. Make sure [as indicated in the two pictures below] that the folded edge is place along the ruler’s “A” solid line.

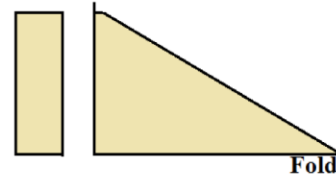

- 19) The **Background Fabric** full diamonds are cut exactly like the Block Top diamonds in Step# 8. (Make 12).

- 20) The **Background Fabric** half diamonds are cut in the same manner, except you need to mark the background fabric where the “C” line indicates. (Make 6)

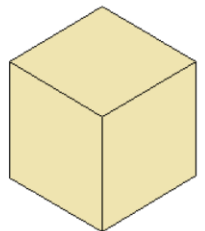

- 21) And then cut the left side at the “C” mark perpendicular to the bottom line.

- 22) Refer to Step #9 to mark the “X” intersections on the wrong side of the Background Fabric diamonds and half diamonds.

- 23) Using Steps #10 - #16, make (2) **Background Fabric** Tumbling Blocks.
